

Scholarships

2009-2010

The scholarships listed in this booklet are those for which the New London High School Guidance Department received information or applications from the previous school year. The deadlines are approximate dates which may be slightly different from year to year and subject to changes at the scholarship grantors' discretion. In addition, scholarship opportunities may be discontinued at the discretion of the grantor.

Our effort in providing this list is to create an awareness of scholarships for which students may qualify. Students should regularly check the scholarship fund file located in the Career Center. It is each student's responsibility to obtain a scholarship application, complete all necessary forms, and return the application to his/her Guidance Counselor, or the Career Center Coordinator, well in advance of the deadline.

Additional scholarship information may often be obtained through a parent's place of employment, organizations, associations, or clubs to which parents may be affiliated.

Universities and colleges may have scholarships that they administer that may not be based upon need. Students should check the catalogs of the respective colleges for which they intend to apply to determine if they meet the criteria for any of these scholarships.

Prepared by: The Guidance Department

Deadline

SAE Engineering Scholarship Program

ALL APPLICANTS MUST:

1. Be a high school senior at the date of application (Sept. 1-Dec 1)
2. intend to earn a degree in engineering or a related science
3. be a citizen of the United States at the time of application (permanent resident not applicable)
4. meet minimum requirements with regard to grade point average, SAT and/or ACT scores as outlined in the individual requirements of each scholarship.

These corporate-sponsored scholarships range in value from \$1,000 to \$6,000. To qualify, the applicant must enroll in an engineering program accredited by the Accreditation Board of Engineering and Technology* (ABET) at a university of the applicant's choice. University scholarships range in value from \$400 to full tuition. To qualify, the applicant must attend the named university and enroll in a specific program of engineering, if required.

Application for a university sponsored scholarship does not constitute application for admission to the college or university. All sponsored scholarships are contingent upon the applicant's enrollment in an accredited curriculum. The applicant is responsible for making application for admission to the college or university. If applicant to the school is not made prior to Jan. 15, the applicant will be disqualified.
